## EXPERIENCE

**TOUCH-TEL USA**, Houston, TX                                                               May/2017 – August/2017
*SOFTWARE ENGINEERING INTERN*

- Programmed a webpage that tracks active orders/active phone card pins for each distributor employed (JavaScript, jQuery, PHP, MySQL, HTML/CSS)

**TOUCH-TEL USA**, Houston, TX                                                               June/2016 – August/2016
*DATABASE PROGRAMMING INTERN*

- Programmed a real-time graphical webpage that shows carrier phone traffic using RRDTool, an open source data logging and graphing system (HTML/CSS, PHP, JavaScript, MySQL, bash)

**HANSA CEQUITY,** Mumbai, Maharashtra, India                                             June/2014 – July/2014
*WEB DESIGN INTERN*

- Programmed a webpage that accepts and logs Facebook users' information into a MySQL database and then graphs and displays this data in Tableau (Facebook API, MySQL, PHP, JavaScript, jQuery, HTML/CSS)

## PROJECTS

- <u>Personal Website/Blog (Javascript, HTML/CSS):</u> I currently run and maintain a website of my own as a personal website and blog.
- <u>Raspberry Pi VPN Server/Media Center (Python):</u> I converted one of my Raspberry Pis into a VPN server as a means of accessing location-locked software when abroad. I converted my second Raspberry Pi into a media center for movies and TV shows for my mom to be able to watch Hindi movies and serials.
- <u>QuicKicks (Android App):</u> Using a backdoor in the Adidas website, my programming team at HackTX 2016 was able to bypass the Adidas purchasing queue for limited quantity shoes and automatically enter users into the Adidas system. This allowed QuicKicks users to purchase rare shoes at a much higher success rate than if they attempted it on their own.

## ACTIVITIES & LEADERSHIP

**Apricity Literary Magazine,** Austin, TX                                                 August/2016 – Present
